collect create — Create a new collection

Description

collect create creates a new, empty collection.

Menu

Statistics > Summaries, tables, and tests > Tables and collections > Create collection

Syntax

collect create *newcname* [, replace]

where *newcname* is the name of the new collection.

Option

replace permits collect create to overwrite an existing collection.

Remarks and examples

collect create creates a new, empty collection. This new collection becomes the current collection. After creating the collection, you can use collect get or the collect prefix to store results from Stata commands into the new collection and then build, customize, and export tables.

Stored results

collect create stores the following in s():

Macros
   s(current)   name of current collection
