

## markersizestyle — Choices for the size of markers

[Syntax](#)    [Description](#)    [Remarks and examples](#)    [Also see](#)

## Syntax

<i>markersizestyle</i>	Description
vtiny	the smallest
tiny	
vsmall	
small	
medsmall	
medium	
medlarge	
large	
vlarge	
huge	
vhuge	
ehuge	the largest
<i>relativesize</i>	any size you want, including size modification

See [G-4] *relativesize*.

Other *markersizestyles* may be available; type

```
. graph query markersizestyle
```

to obtain the complete list of *markersizestyles* installed on your computer.

## Description

Markers are the ink used to mark where points are on a plot; see [G-3] *marker\_options*. *markersizestyle* specifies the size of the markers.

## Remarks and examples

stata.com

*markersizestyle* is specified inside the `msize()` option:

```
. graph ..., msize(markersizestyle) ...
```

Sometimes you will see that a *markersizestylelist* is allowed:

```
. scatter ..., msymbol(markersizestylelist) ...
```

A *markersizestylelist* is a sequence of *markersizestyles* separated by spaces. Shorthands are allowed to make specifying the list easier; see [G-4] *stylelists*.

The graph below displays the different marker sizes:
