

scheme sj — Scheme description: sj

[Syntax](#) [Description](#) [Remarks and examples](#) [Also see](#)

Syntax

<i>schemename</i>	Foreground	Background	Description
sj	monochrome	white	<i>Stata Journal</i>

For instance, you might type

```
. graph ... , ... scheme(sj)
. set scheme sj [ , permanently ]
```

See [G-3] [scheme_option](#) and [G-2] [set scheme](#).

Description

Schemes determine the overall look of a graph; see [G-4] [schemes intro](#).

Scheme sj is the official scheme of the *Stata Journal*; see [R] [sj](#).

Remarks and examples

When submitting articles to the *Stata Journal*, graphs should be drawn using the scheme sj.

Before drawing graphs for inclusion with submissions, make sure that scheme sj is up to date. Schemes are updated along with all the rest of Stata, so you just need to type

```
. update query
```

and follow any instructions given; see [R] [update](#).

Also visit the *Stata Journal* website for any special instructions. Point your browser to <http://www.stata-journal.com>.

For an example, see [Examples of schemes](#) in *Remarks and examples* of [G-4] [schemes intro](#).
