

**intro** — Index and guide to functions

[Contents](#)

[Description](#)

[Remarks and examples](#)

[Also see](#)

## Contents

[M-4] Entry                      Description

---

### Mathematical

---

**matrix**                      Matrix functions

**solvers**                      Matrix solvers and inverters

**scalar**                      Scalar functions

**statistical**                      Statistical functions

**mathematical**                      Other important functions

### Utility & manipulation

---

**standard**                      Standard matrices

**utility**                      Matrix utility functions

**manipulation**                      Matrix manipulation functions

### Stata interface

---

**stata**                      Stata interface functions

### String, I/O, & programming

---

**string**                      String manipulation functions

**io**                      I/O functions

**programming**                      Programming functions

---

## Description

The entries in this section provides an index to the functions, grouped according to purpose.

## Remarks and examples

[stata.com](#)

The next section, section [\[M-5\]](#), presents all the Mata functions, in alphabetical order.
