

StataCorp LLC Accessibility Conformance Report

International Edition

(Based on VPAT® Version 2.5)

Name of Product/Version: Stata/Version 19

Report Date: 4/8/2025

Product Description: Stata is a complete, integrated software package that provides all the tools data science professionals need—data manipulation, visualization, statistics, and automated reporting.

Contact Information: section508@stata.com

Notes: StataCorp is committed to helping users with accessibility needs make the most out of their experience with Stata. For individual assistance, please reach out to section508@stata.com so that we can provide specialized support, internal best practices documents, and technical assistance.

All core functionality can be accessed through the command line interface. Some portions of the software, including results, are not designed to work with assistive technologies such as screen readers. The software can be put in a mode where results are output as plain text and will work with assistive technologies. To enable this mode, type the command 'set textresults on' in the Command window. This mode can be disabled with the command 'set textresults off'.

Evaluation Methods Used: This conformance report is the result of an accessibility audit conducted by a third-party company specializing in accessibility testing, auditing, and remediation, Microassist Inc. As noted below, the audit was performed to the Web Content Accessibility Guideline (WCAG) 2.2 Level AA standard. The audit used a combination of manual and automated tests. The following applications were used as part of the audit to identify and report potential accessibility issues:

- Assistive Technologies for Manual Testing: NVDA
- Automated Testing Tools: Various tools and plugins, such as the Colour Contrast Analyzer by TPC and Accessibility Insights for Windows.

Applicable Standards/Guidelines

This report covers the degree of conformance for the following accessibility standard/guidelines:

Standard/Guideline	Included In Report
Web Content Accessibility Guidelines 2.0	Level A (Yes) Level AA (Yes) Level AAA (No)
Web Content Accessibility Guidelines 2.1	Level A (Yes) Level AA (Yes) Level AAA (No)
Web Content Accessibility Guidelines 2.2	Level A (Yes) Level AA (Yes) Level AAA (No)
Revised Section 508 standards published January 18, 2017 and corrected January 22, 2018	(Yes)
EN 301 549 Accessibility requirements for ICT products and services - V3.1.1 (2019-11) AND EN 301 549 Accessibility requirements for ICT products and services - V3.2.1 (2021-03)	(No)

Terms

The terms used in the Conformance Level information are defined as follows:

- **Supports:** The functionality of the product has at least one method that meets the criterion without known defects or meets with equivalent facilitation.
- **Partially Supports:** Some functionality of the product does not meet the criterion.
- **Does Not Support:** The majority of product functionality does not meet the criterion.
- **Not Applicable:** The criterion is not relevant to the product.
- **Not Evaluated:** The product has not been evaluated against the criterion. This can only be used in WCAG Level AAA criteria.

WCAG 2.x Report

Tables 1 and 2 also document conformance with:

- EN 301 549: Chapter 9 - Web, Sections 10.1-10.4 of Chapter 10 - Non-Web documents, and Sections 11.1-11.4 and 11.8.2 of Chapter 11 - Non-Web Software (open and closed functionality), and Sections 12.1.2 and 12.2.4 of Chapter 12 – Documentation
- Revised Section 508: Chapter 5 – 501.1 Scope, 504.2 Content Creation or Editing, and Chapter 6 – 602.3 Electronic Support Documentation.

Note: When reporting on conformance with the WCAG 2.x Success Criteria, they are scoped for full pages, complete processes, and accessibility-supported ways of using technology as documented in the [WCAG 2.0 Conformance Requirements](#).

Table 1: Success Criteria, Level A

Notes:

Criteria	Conformance Level	Remarks and Explanations

Revised Section 508 Report

Notes:

Chapter 3: [Functional Performance Criteria \(FPC\)](#)

Notes:

Criteria	Conformance Level	Remarks and Explanations
302.1 Without Vision	Partially Supports	The core functionality of the application can be performed with the command line interface. Some relational information that is rendered in text would not be communicated, but that information can be obtained by other means.
302.2 With Limited Vision	Supports	The application allows for customization of text colors, sizes, and fonts for easier readability.
302.3 Without Perception of Color	Supports	The application does not communicate information strictly through color. Text output may be customized to convey information such as links using underlined text. Graphs can be customized by the user to give text labels to data (data can also be found through the command line interface).
302.4 Without Hearing	Supports	The application does not contain content in audio.
302.5 With Limited Hearing	Supports	The application does not contain content in audio.
302.6 Without Speech	Supports	The application does not have a speech input requirement.
302.7 With Limited Manipulation	Supports	The core functionality of the application can be performed with the command line interface.
302.8 With Limited Reach and Strength	Supports	The application does not have a reach or

Criteria	Conformance Level	Remarks and Explanations
		strength requirement.
302.9 With Limited Language, Cognitive, and Learning Abilities	Partially Supports	Some form fields lack persistent labels. Error messages may not give detailed explanations of the error, as the nature of the error may be contextual.

Chapter 4: [Hardware](#)

Notes: There are no hardware components of the application.

Chapter 5: [Software](#)

Notes: All core functionality can be accessed through the command line interface. Some portions of the software, including results, are not designed to work with assistive technologies such as screen readers. The software can be put in a mode where results are output as plain text and will work with assistive technologies. To enable this mode, type the command 'set textresults on' in the Command window. This mode can be disabled with the command 'set textresults off'.

Criteria	Conformance Level	Remarks and Explanations
501.1 Scope – Incorporation of WCAG 2.0 AA	See WCAG 2.x section	See information in WCAG 2.x section
502 Interoperability with Assistive Technology	Heading cell – no response required	Heading cell – no response required
502.2.1 User Control of Accessibility Features	Supports	The application is not platform software.
502.2.2 No Disruption of Accessibility Features	Supports	The application does not disrupt platform software accessibility features.
502.3 Accessibility Services	Heading cell – no response required	Heading cell – no response required
502.3.1 Object Information	Partially Supports	Some objects may denote an incorrect role or lack a programmatic name.
502.3.2 Modification of Object Information	Supports	Modifications of objects are read through assistive technologies.
502.3.3 Row, Column, and Headers	Does Not Support	Commands can be used to programmatically identify headings and other information identifying content and structure.
502.3.4 Values	Partially Supports	The values of some drop down menus are not read by assistive technologies.

Criteria	Conformance Level	Remarks and Explanations
502.3.5 Modification of Values	Partially Supports	The values of some drop down menus are not read by assistive technologies when their value is changed by the user.
502.3.6 Label Relationships	Partially Supports	Some components in the application do not programmatically denote visual labels.
502.3.7 Hierarchical Relationships	Does Not Support	Commands can be used to programmatically identify headings and other information identifying content and structure.
502.3.8 Text	Partially Supports	Text in various windows may not be read by assistive technologies. The application contains a setting that allows text result output to be read by screen readers.
502.3.9 Modification of Text	Supports	Text that is set by the user is read programmatically by assistive technologies.
502.3.10 List of Actions	Partially Supports	Some drop down menus cannot be accessed by assistive technologies.
502.3.11 Actions on Objects	Partially Supports	Some drop down menus cannot be accessed by assistive technologies.
502.3.12 Focus Cursor	Supports	Focus is visibly indicated in the application.
502.3.13 Modification of Focus Cursor	Supports	Focus can be moved by the user through keyboard commands and shortcuts.
502.3.14 Event Notification	Supports	Users are notified of certain events.
502.4 Platform Accessibility Features	Supports	The application is not platform software.
<u>503 Applications</u>	Heading cell – no response required	Heading cell – no response required
503.2 User Preferences	Supports	The application accepts user interface changes set at the operating system level.
503.3 Alternative User Interfaces	Supports	The application does not offer separate user interfaces.
<i>503.4 User Controls for Captions and Audio Description</i>	Heading cell – no response required	Heading cell – no response required
503.4.1 Caption Controls	Supports	The application does not contain multimedia.
503.4.2 Audio Description Controls	Supports	The application does not contain

Criteria	Conformance Level	Remarks and Explanations
		multimedia.
<u>504 Authoring Tools</u>	Heading cell – no response required	Heading cell – no response required
504.2 Content Creation or Editing (if not authoring tool, enter “not applicable”)	See WCAG 2.x section	See information in WCAG 2.x section
504.2.1 Preservation of Information Provided for Accessibility in Format Conversion	Supports	The application is not an authoring tool.
504.2.2 PDF Export	Supports	The application is not an authoring tool.
504.3 Prompts	Supports	The application is not an authoring tool.
504.4 Templates	Supports	The application is not an authoring tool.

Chapter 6: [Support Documentation and Services](#)

Notes:

Criteria	Conformance Level	Remarks and Explanations
<u>601.1 Scope</u>	Heading cell – no response required	Heading cell – no response required
<u>602 Support Documentation</u>	Heading cell – no response required	Heading cell – no response required
602.2 Accessibility and Compatibility Features	Supports	The help documentation in the application explains how to use accessibility features.
602.3 Electronic Support Documentation	See WCAG 2.x section	See information in WCAG 2.x section
602.4 Alternate Formats for Non-Electronic Support Documentation	Supports	Alternate formats of print materials can be provided at the user’s request.
<u>603 Support Services</u>	Heading cell – no response required	Heading cell – no response required
603.2 Information on Accessibility and Compatibility Features	Supports	Support services can give additional information and assistance to the user in using the accessibility features of the application.
603.3 Accommodation of Communication Needs	Supports	Email tech-support@stata.com for all types of support. Email section508@stata.com for accessibility-specific questions. Call 979-696-4600 for voice support for installation questions (tech-support@stata.com email may also be used for this). Call 979-696-4600 or

Criteria	Conformance Level	Remarks and Explanations
		email service@stata.com for non-technical customer service questions and support.
