Other *markersizestyles* may be available; type

```
. graph query markersizestyle
```

to obtain the complete list of *markersizestyles* installed on your computer.

## Remarks and examples

*markersizestyle* is specified inside the msize() option:

```
. graph ..., msize(markersizestyle) ...
```

Sometimes you will see that a *markersizestylelist* is allowed:

```
. scatter ..., msymbol(markersizestylelist) ...
```

A *markersizestylelist* is a sequence of *markersizestyles* separated by spaces. Shorthands are allowed to make specifying the list easier; see [G-4] *stylelists*.
