Description

*ringposstyle* is specified inside options such as *ring()* and is typically used in conjunction with *clockposstyle* (see [G-4] *clockposstyle*) to specify a position for titles, subtitles, etc.

Syntax

*ringposstyle* is

\[
# 
0 \leq # \leq 100, \ # \text{ real}
\]

Remarks and examples

See *Positioning of titles* under Remarks and examples of [G-3] *title_options*.
