

# Contents

<code>me</code>	Introduction to multilevel mixed-effects models
<code>estat df</code>	Calculate degrees of freedom for fixed effects
<code>estat group</code>	Summarize the composition of the nested groups
<code>estat icc</code>	Estimate intraclass correlations
<code>estat recovariance</code>	Display estimated random-effects covariance matrices
<code>estat sd</code>	Display variance components as standard deviations and correlations
<code>estat wcorrelation</code>	Display within-cluster correlations and standard deviations
<code>mecloglog</code>	Multilevel mixed-effects complementary log-log regression
<code>mecloglog postestimation</code>	Postestimation tools for <code>mecloglog</code>
<code>meglm</code>	Multilevel mixed-effects generalized linear model
<code>meglm postestimation</code>	Postestimation tools for <code>meglm</code>
<code>meintreg</code>	Multilevel mixed-effects interval regression
<code>meintreg postestimation</code>	Postestimation tools for <code>meintreg</code>
<code>melogit</code>	Multilevel mixed-effects logistic regression
<code>melogit postestimation</code>	Postestimation tools for <code>melogit</code>
<code>menbreg</code>	Multilevel mixed-effects negative binomial regression
<code>menbreg postestimation</code>	Postestimation tools for <code>menbreg</code>
<code>menl</code>	Nonlinear mixed-effects regression
<code>menl postestimation</code>	Postestimation tools for <code>menl</code>
<code>meologit</code>	Multilevel mixed-effects ordered logistic regression
<code>meologit postestimation</code>	Postestimation tools for <code>meologit</code>
<code>meoprobit</code>	Multilevel mixed-effects ordered probit regression
<code>meoprobit postestimation</code>	Postestimation tools for <code>meoprobit</code>
<code>mepoisson</code>	Multilevel mixed-effects Poisson regression
<code>mepoisson postestimation</code>	Postestimation tools for <code>mepoisson</code>
<code>meprobit</code>	Multilevel mixed-effects probit regression
<code>meprobit postestimation</code>	Postestimation tools for <code>meprobit</code>
<code>meqrlogit</code>	Multilevel mixed-effects logistic regression (QR decomposition)
<code>meqrlogit postestimation</code>	Postestimation tools for <code>meqrlogit</code>
<code>meqrpoisson</code>	Multilevel mixed-effects Poisson regression (QR decomposition)
<code>meqrpoisson postestimation</code>	Postestimation tools for <code>meqrpoisson</code>
<code>mestreg</code>	Multilevel mixed-effects parametric survival models

mestreg postestimation ..... Postestimation tools for mestreg

metobit ..... Multilevel mixed-effects tobit regression

metobit postestimation ..... Postestimation tools for metobit

mixed ..... Multilevel mixed-effects linear regression

mixed postestimation ..... Postestimation tools for mixed
