estimates title — Set title for estimation results

Description

estimates title: (note the colon) sets or clears the title for the current estimation results. The title is used by estimates table, estimates stats, and estimates dir.

estimates title without the colon displays the current title.

Quick start

Set title for the current estimation results

     estimates title: Base model

Display the title of the current estimation results

     estimates title

Menu

Statistics > Postestimation

Syntax

<u>est</u>imates title: [*text*]

<u>est</u>imates title

Remarks and examples

After setting the title, if estimates have been stored, do not forget to store them again:

```
. use https://www.stata-press.com/data/r19/auto
(1978 automobile data)

. regress mpg gear turn
 (output omitted)

. estimates store reg
```

Now let's add a title:

```
. estimates title: "My regression"

. estimates store reg
```
