grmap — Graph choropleth maps

Description

grmap draws choropleth maps. Choropleth maps are maps in which shading or coloring is used to indicate values of variables within areas.

Type help grmap for syntax.

Quick start

A choropleth map of \( x \) using spset data

    grmap x

Menu

Statistics > Spatial autoregressive models

Remarks and examples

grmap is lightly adapted from spmap, which was written by Maurizio Pisati (2007) of the Università degli Studi di Milano-Bicocca and which was preceded by his tmap command (2004). grmap differs from spmap in that it works with spset data. StataCorp expresses its gratitude to Maurizio for allowing us to use it.
