**grmap** — Graph choropleth maps

**Description**

`grmap` draws choropleth maps. Choropleth maps are maps in which shading or coloring is used to indicate values of variables within areas.

Type `help grmap` for syntax.

**Quick start**

A choropleth map of `x` using `spset` data

```
grmap x
```

**Menu**

Statistics > Spatial autoregressive models

**Remarks and examples**

`grmap` is lightly adapted from `spmap`, which was written by Maurizio Pisati (2007) of the Università degli Studi di Milano-Bicocca and which was preceded by his `tmap` command (2004). `grmap` differs from `spmap` in that it works with `spset` data. StataCorp expresses its gratitude to Maurizio for allowing us to use it.
