

collect create — Create a new collection[Description](#)[Remarks and examples](#)[Menu](#)[Stored results](#)[Syntax](#)[Also see](#)[Option](#)

Description

`collect create` creates a new, empty collection.

Menu

Statistics > Summaries, tables, and tests > Tables and collections > Create collection

Syntax

```
collect create newcname [, replace]
```

where *newcname* is the name of the new collection.

Option

`replace` permits `collect create` to overwrite an existing collection.

Remarks and examples

stata.com

`collect create` creates a new, empty collection. This new collection becomes the [current collection](#). After creating the collection, you can use `collect get` or the `collect` prefix to store results from Stata commands into the new collection and then build, customize, and export tables.

Stored results

`collect create` stores the following in `s()`:

Macros

`s(current)` name of current collection
