Subject and author index

This is the subject and author index for the Treatment-Effects Reference Manual. Readers interested in topics other than treatment effects should see the combined subject index (and the combined author index) in the Glossary and Index.

A

Abadie–Imbens robust standard errors, see robust, Abadie–Imbens standard errors
AIPW, see augmented inverse-probability weighting
aipw, teffects subcommand, [TE] teffects aipw
Angrist, J. D., [TE] teffects intro advanced
ATE, see average treatment effect
ATE and ATET, comparing, [TE] teffects intro advanced, also see average treatment effect, also see average treatment effect on treated
cosine kernel function, [TE] teffects overlap
counterfactual, [TE] Glossary, also see potential outcome
Cousens, S. N., [TE] teffects intro advanced

D

Daniel, R. M., [TE] teffects intro advanced
data, observational, see observational data
De Stavola, B. L., [TE] teffects intro advanced
Dearden, L., [TE] teffects intro advanced, [TE] teffects multivalued
DiNardo, J., [TE] teffects overlap
Dunn, G., [TE] teffects multivalued

E

EE estimator, see estimating-equation estimator
Epanechnikov kernel function, [TE] teffects overlap
etpoisson command, [TE] etpoisson, [TE] etpoisson postestimation
etregress command, [TE] etregress, [TE] etregress postestimation
outcomes,
  count, Poisson, [TE] etpoisson
  ordinal, treatment effect, [TE] teffects multivalued
overalp assumption, [TE] teffects intro, [TE] teffects intro advanced, [TE] teffects overlap,
  [TE] Glossary
overlap, teffects subcommand, [TE] teffects overlap

P
Parzen kernel function, [TE] teffects overlap
Pawitan, Y., [TE] teffects ra
Pickles, A., [TE] teffects multivalued
potential outcome, [TE] potential-outcome means, [TE] teffects aipw
psmatch, teffects subcommand, [TE] teffects psmatch

R
ra, teffects subcommand, [TE] teffects ra
rectangle kernel function, [TE] teffects overlap
Ridder, G., [TE] teffects intro advanced
Robins, J. M., [TE] teffects intro advanced
robust, Huber/White/sandwich estimator of variance,
  Poisson regression, treatment effect, [TE] etpoisson
treatment effect, [TE] etpoisson, [TE] etregress,
Rosenbaum, P. R., [TE] teffects intro advanced
Rotnitzky, A., [TE] teffects intro advanced
Rubin, D. B., [TE] teffects intro advanced

S
Sándor, L., [TE] teffects intro advanced
sandwich/Huber/White estimator of variance, see robust, Huber/White/sandwich estimator of variance
Schafer, J. L., [TE] teffects intro advanced
selection-on-observables, see conditional-independence assumption
Shiboski, S. C., [TE] teffects intro advanced
Sianesi, B., [TE] teffects intro advanced, [TE] teffects multivalued
Silverman, B. W., [TE] teffects overlap
stable unit treatment value assumption, [TE] teffects intro advanced
standard errors, robust, see robust, Abadie–Imbens standard errors, see robust, Huber/White/sandwich estimator of variance
Stefanski, L. A., [TE] teffects aipw
Sued, M., [TE] teffects intro advanced
SUTVA, see stable unit treatment value assumption

T
Tan, Z., [TE] teffects aipw, [TE] teffects intro advanced
teeffects, [TE] teffects, [TE] teffects postestimation
  aipw command, [TE] teffects aipw
  ipw command, [TE] teffects ipw
  ipwra command, [TE] teffects ipwra
  nnmatch command, [TE] teffects nnmatch
  overlap command, [TE] teffects overlap
  pmatch command, [TE] teffects pmatch
  ra command, [TE] teffects ra
Terza, J. V., [TE] etpoisson
Thompson, D. J., [TE] teffects intro advanced
treatment
effect, [TE] etpoisson, [TE] etregress, [TE] teffects,
  [TE] teffects aipw, [TE] teffects intro,
  [TE] teffects intro advanced, [TE] teffects ipw,
  [TE] teffects ipwra, [TE] teffects multivalued,
  [TE] teffects nnmatch, [TE] teffects overlap,
  [TE] teffects postestimation, [TE] teffects pmatch,
  [TE] teffects ra, [TE] treatment effects
triangle kernel function, [TE] teffects overlap
Tsiatis, A. A., [TE] teffects intro advanced

U
unconfoundedness, see conditional-independence assumption

V
van der Laan, M. J., [TE] teffects intro advanced
van der Vaart, A. W., [TE] teffects aipw
variance, Huber/White/sandwich estimator, see robust,
Huber/White/sandwich estimator of variance
Vittinghoff, E., [TE] teffects intro advanced

W
White/Huber/sandwich estimator of variance, see robust,
Huber/White/sandwich estimator of variance
Wooldridge, J. M., [TE] etregress, [TE] teffects aipw,

Z
Zhao, L. P., [TE] teffects intro advanced
