Jeff Pitblado

Associate Director, Statistical Software
StataCorp LP

2009 Canadian Stata Users Group Meeting

1. Stata 11
2. User meetings
3. Trade shows
4. Public training
5. Private training
6. StataPress
7. Numerics by Stata
8. Email alerts

- Multiple imputation
- Factor-variable notation and predictive margins
- Generalized method of moments (GMM)
- Competing-risks regression
- Multivariate GARCH
- State-space models
- Panel data unit root tests
- Enhanced `xtmixed`

- Multiple fonts and subscripts in graphs
- Syntax highlighting and more in the do-file editor
- Enhanced data editor
- Enhanced variables manager
- More ODBC features
- New merge command

- Associative arrays
- Object-oriented programming in Mata
- Numerical-derivative taker in Mata
- soundex string matching functions
- Programming tools to support factor variables

- PDF manuals
- Operating system independent licenses
- About 800 pages more documentation

What it took to achieve Stata 11

	Stata 11	New
C code	921,101	176,069
Ado code	482,529	62,296
Mata code	81,927	44,262
Total	1,485,557	282,627
Certification	946,663	206,057
Grand total	2,432,220	488,684

Certification produces 2,030,747 lines of output, or 36,923 pages, or 74 500-page volumes.

Mexican (Mexico City) April 23

German (Bonn) June 26

UK (London) September 10-11

Nordic and Baltic (Stockholm) September 17-18

Canadian (Toronto) October 22

Australian (Sydney) November 4-6

Italian (Florence) November 19-20

ASSA January 3–5 (San Francisco)

ENAR March 15–16 (San Antonio)

JSM August 1–6 (Washington DC)

APHA November 7–11 (Philadelphia)

ASSA January 3–5 (Atlanta)

Jun. 8–12, Ann Arbor, ICPSR short course on Panel Data

Aug. 17–21, Ann Arbor, ICPSR short course on Multilevel Modeling in Stata

Aug. 26–27, New York (Using Stata Effectively, \$950)

Aug. 28, New York (New features in Stata 11, \$395)

Sep. 30–Oct. 1, San Francisco

Oct. 2, San Francisco

Oct. 28–29, Chicago

Oct. 30, Chicago

Also held public training in Houston and Seattle.

StataCorp has given (or will be giving) 2–5 day courses on Stata at

CDC/Atlanta

NCHS (Hyattsville)

Rand Corporation (Santa Monica)

Center for Budget & Policy Priorities (DC)

Johns Hopkins (Baltimore)

U. of Toronto Business School

and other places. Standard courses are available, or custom courses can be designed.

- The StataPress publishes 15 books and printed 40,000 books in 2008 (counts exclude manuals).
- The StataPress published 9 new books in 2008, and 2 more in February 2009.
- Under license, StataPress books have been published in French and Korean, and we are negotiating a contract for Chinese. We are in discussion stages on Russian.
- StataPress has published one book in French.
- StataPress has published in Spanish, but those were manuals.
- StataPress books are sold by StataCorp, by CRC Press, and by Amazon.

- Colin Cameron and Pravin Trevedi, *Microeconometrics Using Stata*: Amazon #1 in Software→Mathematical and Statistical
- Kit Baum, *An Introduction to Modern Econometrics Using Stata*
- Kit Baum, *An Introduction to Stata Programming*
- Ulrich Kohler and Frauke Kreuter, *Data Analysis Using Stata, 2nd Ed.*

We are not just a printer:

- Your book will be reviewed and you will be given comments by a senior statistician (often developer) at StataCorp.
- Your book will be read and edited by professionals.
- Stata code and output will be reviewed by other professionals.
- StataPress grants authors higher than usual royalties.

And even if we don't get to publish your book, we have an author support program available to everyone.

- Stata professionals will review your Stata code and output
- Stata production specialists will help you format Stata output, including graphs
- Stata editors and statisticians will review the accuracy of Stata-related content
- It's free!

StataCorp is launching *Numerics by Stata*

- For other software and web sites that use Stata as the underlying engine for performing statistics or drawing graphs
- Program is well on its way
- Soon you will start seeing other software with a small *Numerics by Stata* logo in the bottom-right corner.

We will send you email alerts about

- new releases
- StataPress books
- StataNews
- Stata Conferences and Users Group Meetings
